

Our cabinets are manufactured from quality aluminum extrusion and are simple to service.

There are many custom options available from cabinet finish & face type, to graphics & colors.

### FLAT ACRYLIC

*1/8" or 3/16" thickness "Flat Acrylic" is ideal for interior and exterior lighted sign cabinets, and perfect for translucent vinyl & digital graphics.*

### PAN-FORMED

*Custom formed polycarbonate is the strongest exterior sign face available, with a raised "Pan Face" also perfect for first-surface graphics.*

### EMBOSS-FORMED

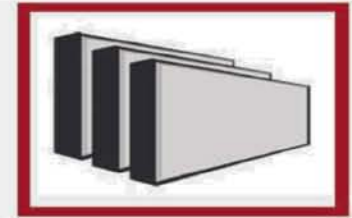

*Polycarbonate Pan Face with "Embossed" or raised graphics are painted from the inside, creating an additional dimension.*

**POLE-MOUNT**

**WALL-MOUNT**
